

## DEMOCRATS NEED 2 MILLION DOLLARS

SAYS GERARD, NATIONAL TREASURER, BUT WILL BE SATISFIED WITH ONE MILLION

REPORTS NUMEROUS CONTRIBUTIONS OF \$5,000—SAYS RICH DEMOCRATS SCARCE

L. C. MARTIN  
(United Press Staff Correspondent)

Washington, Sept. 22.—Denouncing as bunk "barroom politics" and "bull," Governor Cox's charges that the republicans had set out to raise a huge fund for the 1920 campaign, Wm. Boyce Thompson, chairman of the republican ways and means committee, today alleged before the senate expenditure investigating committee "that Cox is no stranger to Wall street and that big interests there are backing him."

Thompson was being pressed for evidence to support his charges by Senator Reed, a democratic member, when the committee recessed.

Preceding Thompson on the stand was James W. Gerard, democratic finance chairman. He said the democrats will be satisfied with \$1,000,000 for their campaign. He gave the committee names of contributors who have given thus far only \$128,000. A number of these gave \$5,000 each. Gerard said that the democrats possibly could use a fund of \$2,000,000 but declared that they would turn back subscriptions to contributors if the fund reached up to \$3,000,000.

"Rich democrats are scarce as hen's teeth," Gerard said. "Thank Heaven, we have a few of them."

Gerard said he had placed no limit on individual contributions and many contributors gave \$5,000 each. They include Bernard M. Baruch, August P. Belmont, C. T. Alexander, Edward L. Dehoney and Joe E. Willard. Baruch gave \$1,500 in addition to the \$5,000, the statement showed.

Another \$5,000 contributor was Franklin D. Roosevelt, vice-presidential nominee.

Daniel C. Roper, former internal revenue collector, gave \$500. Wm. G. McAdoo gave \$1,000, Secretary of War Baker gave \$500. Gerard said it did not appear in the statement.

No federal office holders will be asked for any money, he said.

Gerard said he understood \$275,000 would be spent for publicity and that Governor Cox's special train is costing \$100,000.

WARNS EXPERT OF THE DEPARTMENT OF JUSTICE—SUGAR PLENTIFUL

Washington, Sept. 22.—Price Expert Weatherly of the justice department, today sounded a warning to sugar dealers not to boost prices.

"There is no excuse for it," he said. "Prospects are good for plentiful raw and refined sugar."

Weatherly urged housewives not to lay in a big stock of sugar now that prices are down, saying it will create an aspect of a shortage.

Present retail prices ranging from fifteen cents to eighteen cents is far above what sugar should bring, according to justice department experts.

## ITALIAN INDUSTRIES BEING RESTORED

(By United Press)

Rome, Sept. 22.—Reports here today indicated a general acceptance of the government decree that industries be restored to normal pending an enactment of the law to give labor a voice in control of manufacturing plants.

Not a Steady Worker.

The estate of a California bellhop is estimated to be worth only about \$30,000. He must have been sick a great deal of the time, or otherwise incapacitated for work.

Very Rude, Indeed.

Few manufacturers were able to say whether a general reduction of automobile prices would result. Dealers here believe a general cut would follow. Manufacturers of all high priced automobiles will ignore the Ford reduction, they said.

Secondhand automobile dealers will suffer losses, it was believed. Many have large stocks purchased at high figures and would be unable to sell them for less than the new prices of unused cars.

## COX MAKES ONLY 2 SPEECHES TODAY

TRAVELING EASTWARD THROUGH ARIZONA HE WILL STOP AT PHOENIX AND PRESCOTT

(United Press Staff Correspondent)

Phoenix, Ariz., Sept. 22.—Information that Elihu Root shortly after returning from Europe will demand that Senator Harding change his international policy to a declaration for the league of nations with reservations, was received by Governor James M. Cox today.

Root, according to Cox advisors, believe it would be inadvisable to form "a new association of nations," or try to remodel the Hague tribunal. Cox was watching the situation closely and expects soon to emphasize that the international court which Root organized is part of the league of nations and can not be conferred as Senator Harding's proposal for remodeling the Hague tribunal.

Discussing reports from Marion today, plans were being made by republican headquarters to counteract Samuel Gompers' advocacy of the democratic nominee among workers. Cox said he was confident an overwhelming majority of the labor votes will go to him.

Today's schedule was the lightest of the entire tour as Cox planned to make speeches only at Phoenix and Prescott, after which he will leave for Albuquerque, New Mexico.

## WOMEN VOTER'S MEETING TODAY

At the Washington School Auditorium Will be Largely Attended Tonight

### OUTSIDE DELEGATIONS ARRIVE

Ladies Want to Emphasize the Fact That They Welcome the Men at the Meeting

There is every indication that the meeting of the League of Women Voters which will be held in the high school auditorium this evening will be largely attended.

Delegations of ladies from outside arrived in the city during the morning and afternoon and evinced a live interest in this meeting. The ladies emphasize the fact that they will welcome the presence of men, and, inasmuch as the ladies in the past have been expected to attend programs prepared by their husbands, it now seems fitting, and courteous, that the husbands and brothers attend a meeting in charge of the ladies.

The program for the night meeting will be offered as previously announced. William Hodson, the director of the Children's Bureau of the Board of Control, will speak on "Child Welfare."

Miss Kneubuhl will help here hearers to understand the values of "Political Parties."

Judge Walter F. Wieland will offer some interesting facts on "The Jury System."

Mrs. Raymond Robins, of Chicago, Will Lecture at Gardner Hall on Saturday Evening, Sept. 25

A large and enthusiastic meeting of republican women was held at the home of Mrs. Howard Ingersoll on Tuesday afternoon, Sept. 21st, for the purpose of making plans for the lecture to be given by Mrs. Raymond Robins of Chicago, in Gardner hall, on Saturday evening, Sept. 25.

Mrs. Robins is one of the foremost speakers of the republican national committee and Brainerd is fortunate to secure her.

This meeting is for men and women and it is hoped that Gardner hall will be packed to the limit. Mrs. Robins is one of the foremost advocates of the rights of women in industry in America and is fearless in her stand for the recognition of these rights.

### Pipeless Furnace Being Demonstrated

E. W. Hallett, of the Crosby Hardware Company, and C. W. Lyons of the Monitor Stove Company's northwest branch, with offices in Minneapolis, are in the city demonstrating the efficiency of the Caloric Pipeless Furnace. One of these furnaces is on display in the show room of the Lively garage. The demonstration which opened yesterday is to be continued over today and tomorrow, Wednesday and Thursday Sept. 22 and 23.

The demonstrators are explaining how a house from one to eighteen rooms may be heated by the one register system by means of circulating the air within the residence. The air in the house is circulated three times each hour.

Over 100,000 of the furnace displayed are in use, over one hundred and fifty having been installed on the range.

Citizens will be interested in looking over this new system of heating.

## THE FREIGHT RATE INCREASE BUGABOO

When the Interstate Commerce Commission authorized the railroads to increase their rates sufficiently to produce approximately \$1,500,000,000 additional revenue annually—so that they could meet the present deficit, the wage advances authorized by the Wage Board and other constantly-rising costs of conducting transportation, the public was somewhat inclined to throw up its hands in despair.

In the first place, \$1,500,000,000 is a staggering sum. It hardly seems possible that there is so much money. In the next place individuals were unable to form any definite or accurate idea as to just what effect this increase would have on the cost of living.

To promote understanding and prevent the formation of erroneous impressions, the following examples of the effects of the increase, as applied to common, daily-used commodities and which generally move between the place of production and the point of consumption in carload lots are set down as a matter of general information.

On a one-pound can of vegetables, from Baltimore to St. Paul the increase is less than 3-10 of 1 cent.

On 100 pounds of sugar, from New Orleans to Des Moines, the increase is 18 cents—less than 2-10 of 1 cent per pound.

On one pound of coffee, from New York to Omaha, the increase is less than 1-4 of 1 cent.

On a case of eggs, from Kansas City to Chicago, the increase is about 10 cents. There are 30 dozen in a case. The increase is a fraction more than 1-3 of 1 cent per dozen.

On one barrel of flour, from Minneapolis to Cincinnati, the increase is 20 cents or 2 1/2 cents for a 24-pound sack.

On one pound of packing house products from Omaha to Pittsburg, the increase is 2 1/2 mills.

On butter, from St. Paul to Philadelphia, the increase is 4 1/2 cents per 100 pounds—less than 1/2 cent per pound.

On a peck of potatoes, from Denver, Col., to Cairo, Ill., the increase is 3 15-100 cents.

On a box of oranges, from Los Angeles to Milwaukee the increase is

about 36 cents. A standard No. 1 crate contains about 7 1/2 dozen average size oranges. The increase per dozen is 4-10 cents.

On a pair of shoes, from Boston to St. Joseph, Mo.—estimated weight two pounds, the increase is a little more than 1 1/2 cents.

On a suit of men's clothing (6 1/2 pounds), from Chicago to Lincoln, Neb., the increase is 2 1/2 cents.

In the case of manufactured articles, the above does not reflect the full increase. To illustrate, the wool in the clothing is shipped to the mill; then the manufactured cloth is carried from the mill to the manufacturer and finally the suit is moved from the manufacturer to the dealer. But, the fact remains that the big charge is the final charge for hauling the finished product.

Split up into individual proportions, instead of viewed in the aggregate total for the nation, it is easy to see that the increases are relatively so small that they cut almost no figure at all, and that it is only because of the unbelievably large volume of business done by and in the United States and carried by its railroads, that the increase amounts to so appalling a figure.

If the population of the United States is 107,000,000 and the total is \$1,500,000,000—the increase per person per day amounts to less than 3 85-100 cents.

### BRAINERD'S ODDEST STORIES

Two men were out duck hunting when they met a man of more years and experience than themselves. This veteran of the soil asked: "What luck are you having boys?" They replied: "There's not a duck round here, no place." The farmer then invited them to take him to his home where they would find all the ducks they would be allowed to shoot; informing them that he had a lake of his own on his farm. They reached his home but not a duck was in sight. The farmer said: "Say, ain't that strange, when I left here there were a thousand duck round. Boys, won't you give me a lift with my hay rack." They had lifted him on the road, and they lifted his rack; but they lifted no ducks.

### AMERICAN LEGION NOTES

Regular meetings of the American Legion will be held every two weeks beginning the latter part of the month. It was deemed advisable by the executive committee to discontinue the meetings during July and August and the early part of September. Only one meeting was held in that time which was the special meeting called Aug. 4 to elect four delegates and four alternates to the State Convention held in Duluth August 16, 17 and 18.

Delegates elected to the convention in Duluth were Arthur L. Koop, Robert Trent, Milton Mahlum, H. B. Sherwood. Alternates E. G. Roth, A. C. Mraz, Franz Anderson and Robert L. Gustafson. Lamonte P. Koop served as a delegate in place of Arthur L. Koop who was unable to attend. The Brainerd delegates took an active part in the convention and were successful in electing Mr. Koop to the committee on credentials, Mr. Mraz to the committee on finance, and Milton Mahlum as alternate to the National Convention at Cleveland.

The Brainerd delegation placed the name of A. C. Mraz of the local post before the executive committee for the position of state finance officer. In the sixth district caucus the members of the executive committee went instructed to vote and work for Mr. Mraz. After a bitter fight in the committee Mr. Mraz was defeated by four votes. Winona secured the

## THE HOOVER SURPLUS

It is rare indeed in these days to have money left over after any big enterprise comes to an end. But when the Belgian Relief Commission finished its five years of work in 1919 it had an unexpended balance of 190,000,000 francs or about \$35,000,000. Most of that balance had been contributed by Belgian citizens who could afford to pay for the relief furnished them during the war. Herbert Hoover recommended that the money be used for the benefit of Belgian education. The first 24 Belgian graduate students to come to the United States to study as a result of that endowment fund arrived in this country early this month. They will go to the Massachusetts Institute of Technology, and to Yale, Columbia, Harvard, Princeton, Cornell, Johns Hopkins, Pennsylvania, Chicago, California and Stanford Universities.

Not all of the \$35,000,000 is to be used for exchange scholarships. A little less than half of it was immediately apportioned among the universities of Brussels, Louvain, Ghent, Liege and the two technical schools at Mons and Antwerp, thus enabling the Belgian universities to resume normal activities at once.

The rest of the money was then made a permanent endowment to finance five special educational projects: 1—Loans and scholarships for the children of Belgian workers in vocational schools; 2—Scholarships for 24 Belgian post graduate students in American universities; 3—Scholarships for 24 American students in Belgian schools; 4—Exchange lecture-ships between universities of the two countries; 5—Subsidizing the organization of child welfare education and research in Belgium.

It is needless to emphasize the opportunities which this broadminded policy furnishes for the promotion of friendship, mutual understanding and widened educational horizon for both countries. It should also be a source of thoughtful pride to citizens of this country that the administration of the fund is in the hands of the Commission for Relief in Belgium Educational Foundation, incorporated under the laws of Delaware and with Herbert Hoover as president.

## RESTAURANT PRICES DESCEND

Restaurant prices are rapidly being subjugated. If the good work continues it soon will be possible to swallow a hotel meal without choking on the price.

The reform is well under way in Pittsburgh. Women started it there with a "carry your own lunch" campaign among their menfolk, and themselves put up the lunches which brought prices down. Now Ohio has joined the procession. Prices are being reduced in her hostels 33 per cent or more on most staple foods. Corn on the cob is now selling for 10 cents a portion as against 15 before the movement started. Prime roast beef and "ham and" have descended from 50 to 40 cents, and dear old pie once more beams at the consumer—in some places—for a nickel a throw.

There is need of this reform. Nowhere has profiteering been more preposterous than in the restaurant game. Whether the owners or those back of them who supply the foods are responsible for the elevated prices makes no difference. Between them they forced the situation, and between them they must come to terms.

## MAN MUST HAVE PLACE

(Contributed)

That the old order changeth is brought forcefully to the attention of the citizens of Brainerd by the meeting of the newly enfranchised women who are assembled in our city today.

We believe that this new order gives promise of a better tomorrow. However, we would invite the ladies in whose good intentions we have implicit confidence, to consider two facts of serious moment to humanity at large. The first of these is this: Man must be conceded a place in this old world's life. He has been here a long time; and he yet abides. Perhaps he has a legitimate standing in the order of things.

Winston S. Churchill, the aggressive British statesman who is the son of a woman of American birth, during the belligerent phase of the struggle for equal suffrage, was speaking in a large hall. His speech was interrupted again and again by indignant ladies who sought to draw attention to their cause and win their rights by silencing government spokesmen. After a number of these ladies had been unceremoniously removed from the hall struggling, dishevelled and frantic to the evident amusement of the masculine members of the audience and the chagrin of their compatriots, Mr. Churchill unfortunately remarked: "When I speak of the men in this industry, I wish it to be understood that the term man embraces woman, and—"

The remainder of the sentence was lost because of the interruption of a shrill, feminine voice which cried: "Votes for women!"

Immediately after the outcry the ushers stepped forward to remove the indignant lady, but Mr. Churchill, intervened and addressing the ushers he said: "Allow the lady to remain," and then turning to the chairman he remarked: "Mr.

Chairman, allow me to apologize to this lady, who is one of the few ladies whom I have met who refuses to be embraced by man."

The writer prays that the time may never come when ladies generally will consistently voice this refusal, and in thus praying he has faith to believe that the catastrophe will be obviated.

Admitting that man is a "regrettable necessity," he remains; even though some ladies are inclined to ask the question: "What is man, that thou art mindful of him?"

And not only does he remain, but he remains "man" and to attempt to designate him by any other term, would make one guilty of a (to quote Mr. Churchill again) "terminological inexactitude."

Again, Gilbert K. Chesterton in "What's Wrong With the World?" suggests when men returned to their homes after spending long evenings in political controversy, and were censured by their wives for such a futile and silly use of time, they felt the justice of the criticism and admitted, to themselves, that they were guilty.

Behold, then, their surprise, when their sensible and practical wives departed from their homes to do the very things for the doing of which they had criticised them!

Mr. Chesterton's keen mind leads one to a re-consideration of what has been called the eleventh commandment: "Do not take thyself too seriously." And yet the problems that confront us are serious. As you face them, Ladies, we "mere men" wish you well, and wherever you succeed in correcting our blunder, we will give you praise. Our mothers saved us from many, and corrected more.

## "Linger Longer Letty"

Oliver Morosco's "Linger Longer Letty" a musical comedy of the hilarious sort with Charlotte Greenwood as the life of the merry party will be at the New Park theatre Friday, Sept. 24.

All the fun revolves around the rational comedienne who surprises by her extraordinary length of limb. She does not hesitate to look grotesque but before the end she bursts forth as a butterfly in gorgeous plumage. It is just the kind of entertainment that will be thoroughly enjoyed by the average seeker of diversion.

Miss Greenwood can extract a laugh from the sourest grouch in the audience. She is supported by a capable company and a large chorus. Robert Higgins is her chief support and he makes an excellent foil for Miss Greenwood.

There are songs and dances plentifully sprinkled through the three acts.

## BRAINERD COLLEGE BEGINS NEW TEAM

More Students Have Enrolled for Fall Term Than Any Similar Period

### NEW PLACE—BETTER EQUIPPED

Holds Front Rank in Institutions of the Kind in the Northwest

The Brainerd Commercial College has just launched upon the biggest season in its history. More students have enrolled for this Fall term than in any similar period in the past.

This is due to the fact that parents are taking a keener interest in the future of their young folks, and are beginning to realize the importance of a business education in making that future a success.

Then, too, the young people themselves seem more anxious to get a business training, and the interest they are taking in their classes is very encouraging.

The college in its new location on the second floor of the City Hall building, is better equipped than ever before to give the young folks of Brainerd and the surrounding country the very best to be had in a practical business education. The school rooms and equipment are modern in every respect. The impression one gets of the college is that it is more like a big, model suite of business offices instead of a school, and there is an unmistakable air of business about the way the classes are conducted that makes the students realize the meaning of the word "Business".

The Brainerd Commercial College has risen rapidly to the place it holds in the front ranks of the schools of its kind in the Northwest. It has set for itself a high standard and expects to continually raise that standard, in order to maintain its excellent reputation thru-out an ever increasing territory.

New students enrolled this week include Miss Helen Erickson, Beatrice and Elva McIntyre, Genevieve Holst, Polly Gordon, Alfreda Eggen, and Agnes Olson, all of Brainerd; Emma Nelson from Woodrow; Hazel and Jennie Keller from Merrifield; Esther Hintikka from New York Mills, Edna Johnson from Detroit.

Another new class starts next Monday for which as many more are expected. Good positions are obtained for the graduates free of charge, and the students from this college have no difficulty in filling them satisfactorily.

### Clerk Carrier Examination

The U. S. Civil Service Commission has announced a clerk-carrier examination to be held at the Brainerd post office on October 9, 1920, at 9 a. m. This examination is being held for the purpose of establishing an eligible register from which existing and future vacancies in the clerical and carrier service of the Brainerd post office, will be filled. For particulars regarding this examination, application blanks, etc., inquire at the post office.

### A Bad Error

## LEARN THE BARBER TRADE

If you are tired of hard and unpleasant work and are interested in learning a trade that is both pleasant and profitable write for interesting information regarding the opportunities offered in the BARBER TRADE.

At no time has the demand for barbers been as great as now. Barbers get more for their work and are paid better than ever before. A good barber can start in business for himself with a few hundred dollars.

## The X-Ray and Chiropractic

The Chiropractor spends month after month for three years perfecting the sense of touch in his fingers so that he may correctly ascertain the location of each spinal segment in the patient's back. Even with his adeptness at locating these misaligned or subluxated vertebrae he is sometimes baffled; and to prove conclusively to himself that he is absolutely correct in his findings, he resorts to the X-ray. By taking a radiographic picture of the patient's spine, he is not only enabled to actually see the exact conditions as they exist, but he is also able to show the patient that condition.

next convention while Little Falls won the distinction of having the new commander from their city. The Sixth district was especially active in the convention electing the Commander A. H. Vernon of Little Falls and Vice Commander Joyce Lewis of Long Prairie.

A complete report of the delegation to the convention will be read at the next meeting of the Legion Post and will be printed at that time. The resolution passed at the state convention is especially interesting as it has been voiced by some that the American Legion is a foe of organized labor. The resolution was presented on the floor of the convention and unanimously adopted that in no way is the American Legion a foe of organized labor—the American Legion itself is a Union of Service Men, the largest and greatest Union in the world. It stands not only for the service men but for an American America.

Something of a great deal of interest to the service men of the city is the attitude that the local banks are taking in regard to the buying of bonus certificates so that local service men who have not received their

state bonus might be paid. If you have not received your bonus go to your banker and ask him to buy certificates enough to include the payment of your bonus. If you are not familiar with any of the bankers call on an officer of the Legion and they will submit your name with others.

**Decorous Manner**  
Real dignity is quietly impressive. Our decorous manner of performing our duties impress those who observe the conventions with our real worth.

## Husky Men are Eating Salads

They Are Also Eating Rich Pastry and Highly Seasoned Foods That Call for Staut's Dyspepsia Tablets

In the big, palatial restaurants of the large cities their principal patronage comes from the out-of-town visitors. No lunch counter sand-

wiches for them. They like the entrees, salads, rich pastry and a cup of black coffee with rich cream. This combination is likely to overwork the stomach, to cause acidity with sour risings, gasiness, a feeling of fullness and other such distresses due to indigestion or dyspepsia. Wherever you go in any city in the U. S. or Canada you will find Staut's Dyspepsia Tablets on sale at 60 cents a box. Take one or two after eating as they relieve the acid stomach and at the same time help digest the food.

## Look at the roads for twenty miles around on a Sunday

THERE isn't any "country" any more. The automobile has brought the most remote settlement almost as close to the center of things as the next county was in the old days.

II

To hear some tire dealers talk you might think that nobody knew anything about tires except the fellow from Broadway.

That's not the basis we go on.

We give every man credit for knowing what he is spending his money on, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

III

That's one thing we like about U. S. Tires.

They make no distinction between the small car owner and the owner of the biggest car in the country.

It's all the same to them. So long as a man owns an automobile—large or small—he's entitled to the very best tire they can give him.

Quality has always been the outstanding feature of U. S. Tires. There's no limit on the U. S. guarantee. All U. S. Tires are guaranteed for the life of the tire.

IV

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

Drop in the next time you're down this way and let us tell you some interesting facts about tires.
